Mr. Springer stated that, as requested, the BED staff worked with DemandEV to incorporate the Commission's requests made during the January 9 Commission meeting. The results of this work are reflected in the updated draft contract provided to the Commission today.

Mr. Springer stated that there is a change in the preamble that better reflects the intent of the partnership.

Additional changes are reflected in Section 2.2, which specifies that there will be at least two (2) vehicles available for lease for periods of one to two weeks. Also, any vehicles designated for lease to low- and moderate-income customers shall be in addition to the two vehicles designated for the one to two week leases, and any remaining vehicles shall be available for lease for a term of up to one month.

Mr. Springer stated that terms have been built into the contract that give BED the ability to evaluate the program over time and see what the uptake is from customers, and modify as necessary.

In closing, Mr. Springer stated that the Department feels that these changes meet the Commissioners concerns expressed at the meeting last week.
