Effective _____

BED EV CHARGING STATION RATE

(BEDEV Page 1 of 2)

Availability

Service under this rate is available for public use of Burlington Electric Department (BED) owned and maintained electric vehicle charging stations for vehicle charging.

Payment will be rendered at the time of service via the charging station card reader using a credit card or prepaid service card approved by the charging network service provider selected by BED.

Usage of charging stations owned by customers of the Burlington Electric Department will be under the tariff normally applicable at the service location in question or under the tariff that would otherwise apply.

Character of Service

“Level 1”, “Level 2”, or “Level 3” electric vehicle charging as delivered by the charging station.

Charge for Services

Customer Charge

- Not applicable

Energy Charge

- \$0.17269 per kWh for all kWh consumed

Other Fees

- \$1 per hour or part thereof of session length (i.e. continuous occupation of the charging station location) over 4 hours for all charging stations except those designated by BED for overnight parking.

Energy Efficiency Charge, Taxes and Local Fees

- The energy charge shown above includes 6% Vermont Sales Tax, 1% Local Option Sales Tax, and 3.5% City Franchise Fee (on amounts exclusive of the Vermont Sales Tax).
- In addition to the energy charge shown above, the current Energy Efficiency Charge (EEC) per kWh for the SG rate shall be added to the kWh charge.
